JOHN EGAN
EEC PRESIDENT

EGAN ENERGY COMMUNICATIONS CLIENT WRITING OFFERINGS

EEC's writing clients benefit from John's 30-plus years of industry expertise, including as a daily energy journalist, utility media relations representative, and market researcher and writer. He can crisply explain industry issues to your audience, whether it's for a website re-launch, customer or employee newsletter, annual report, or thought-leadership article in an industry trade publication.

CUSTOMER & EMPLOYEE NEWSLETTERS

"We wanted the newsletter articles to relate to what customers could actually see; poles, wires, those green boxes in customers yards, along with what they don't see every day. John created pieces that were not only informative, but something the customers could relate to."

**Jenny Heimerman, Former Supervisor,
Customer Care, Owatonna Public Utilities**

ANNUAL REPORTS

"John did a fabulous job writing our annual reports for 2017 and 2018. Since we hired John to help us with our content development projects, we've collected captivating stories and impactful text to use across numerous communication channels."

Christina Pierson, External Affairs Director, Central Municipal Power Agency and Services (CMPAS)

INDUSTRY ARTICLES

"John can always be relied upon on to provide in-depth news on the latest developments in the energy industry. With his wealth of experience, he is definitely the go-to guy when it comes to power-related knowledge, and goes beyond what is required of him."

Brian Ford, Editor-in-Chief, Industrial Info Resources
